(shapeAi)

CAREER OBJECTIVE

Looking for a role where I can grow and learn from experienced team members where I can utilize my skills to further work for personal and professional development and contribute towards the prosperity of the organization.

WORK EXPERIENCE

Web Developer Intern

The Sparks Foundation

October 2021 - October 2021/Singapore

- Created a Basic Banking website which has the following specs.
- Start with creating data in Mysql database for upto 10 customers. Customer table will have basic fields such as name, email, current balance etc., Transfers table will record all transfers happened.
- Flow: Homepage> View all Customers> Select and view one customer >Transfer Money. No login page and No User creation.

PROJECTS

SIMPLE TIC-TAE-TOE GAME

- Built this game in Python using dictionaries, for loop, if-else conditions and functions.
- The board is numbered like the keyboard's number pad. And thus, a player can make their move in the game board by entering the number from the keyboard number pad.
- Initially, the game board is empty and then it take inputs from the players and function check for the winning condition and if the whole board gets filled and no one wins, declare the result as "Tie" and ask users if they want to restart the game.

VEC CODER'S Club

Class Co-ordinator

- Every week a programming contest is being conducted by the club.
- The students in the leaderboard will be encouraged and appreciated for their effort.
